

User Documentation

Installation

- Download latest module version from [distributions](#)
- Install module using standard OpenCart module installer (Extensions > Installer > Upload File)

The screenshot shows the OpenCart administration interface. On the left is a dark navigation menu with the OpenCart logo at the top. The menu items are: NAVIGATION, Dashboard, Catalog, Extensions, Marketplace, Installer, Extensions, Modifications, Events, Design, Sales, and Customers. Red arrows point from the 'Extensions' menu item (labeled 1), the 'Installer' sub-menu item (labeled 2), and the 'Upload' button (labeled 3) to their respective locations in the main content area.

The main content area is titled 'Extension Installer' with a breadcrumb trail 'Home > Extension Installer'. It contains three sections: 'Upload your extensions', 'Install Progress', and 'Install History'.

The 'Upload your extensions' section has a heading 'Upload your extensions', a link '* Upload File ?' with a question mark icon, and a blue 'Upload' button with an upload icon.

The 'Install Progress' section has a heading 'Install Progress' and a progress bar. The progress bar is green and is labeled 'Progress'.

The 'Install History' section has a heading 'Install History' and a table with the following data:

Filename	Date Added	Action
gw3-opencart-plugin-20180227.ocmod.zip	13/03/2018	

At the bottom right of the 'Install History' section, it says 'Showing 1 to 1 of 1 (1 Pages)'.

Initial configuration

- Enable and configure module in OpenCart admin (Extensions > Extensions > Payments > Transact Pro)

The screenshot shows the OpenCart admin interface. The left sidebar contains a 'NAVIGATION' menu with items like Dashboard, Catalog, Extensions, Marketplace, Installer, Modifications, Events, Design, Sales, Customers, and Marketing. The main content area is titled 'Extensions' and shows a list of extensions. The 'Payments' category is selected, showing 52 extensions. The 'Transact Pro' extension is highlighted with a red box. The 'Install' button for 'Transact Pro' is also highlighted with a red box and a red arrow. The 'Transact Pro' extension is currently disabled.

Extension Name	Logo	Status	Actions
Secure Trading Web Service	secure//trading	Disabled	[Edit] [Install]
Skrill	Skrill	Disabled	[Edit] [Install]
Square	Square	Disabled	[Edit] [Install]
Transact Pro	TRANSACT PRO	Disabled	[Edit] [Install]
2Checkout	2CC 2CHECKOUT.COM	Disabled	[Edit] [Install]
Web Payment Software	web payment software	Disabled	[Edit] [Install]
Wechat Pay	微信支付	Disabled	[Edit] [Install]

Setting tab

Settings

- Extension status : Enabled - Enables or disables Transact Pro module
- Payment method name : Credit / Debit Card - This will be shown in payment options list on Checkout page
- Callback URL : - You can not change that, this information is needed for Transact Pro support team to properly configure your account

- **Redirect URL** : - You can not change that, this information is needed for Transact Pro support team to properly configure your account
- **Gateway URL** : - Leave empty for sandbox mode (<https://api.sandbox.transactpro.io/v3.0>) or enter the information received from Transact Pro support team (usually it's <https://api.transactpro.lv/v3.0>)
- **Account ID** : - Specify your numeric Account ID received from the Transact Pro support team, the specific Account ID is related the way payments being processed
- **Secret Key** : - Specify your Secret Key received from the Transact Pro support team
- **Payment Method** : Choose payment method you want to use (SMS is most common used) Supported methods are:
 - SMS: Customer will charged immediately, transaction can be reverted manually
 - DMS: Funds will be reserved, merchant can charge them or cancel manually
 - Credit: Funds will be transferred to merchant's credit card
 - P2P: Funds will be transferred to merchant's credit card using P2P method
- **Payment Information Capture** : Choose Merchant Side (credit card details will be entered on Checkout page) or Payment gateway side (client will be redirected to payment gateway page to enter credit card details). **Note:** Payment Information Capture depends from Account ID , you need to set corresponded Account ID value for correct work. For example, you have following Account ID values:
 - 100: CARD DETAILS COLLECTED ON GW_SIDE_3D_V - That means Security 3D transactions, customer will be redirected to payment gateway to enter credit card information, you need to set Payment Information Capture as Payment gateway side
 - 101: CARD DETAILS COLLECTED ON GW_SIDE_NON_3D_V - That means non-3D transactions, customer will be redirected to payment gateway to enter credit card information, you need to set Payment Information Capture as Payment gateway side
 - 200: CARD DETAILS COLLECTED ON API_3D_V - That means Security 3D transactions, customer will enter credit card information directly on Checkout page, you need to set Payment Information Capture as Payment gateway side
 - 201: CARD DETAILS COLLECTED ON API_NON3D_V - That means non-3D transactions, customer will enter credit card information directly on Checkout page, you need to set Payment Information Capture as Payment gateway side
- **Total , Geo Zone** : Conditions when that payment method can be used
- **Sort Order** : The position of that payment method in the payments options list on Checkout page

Transaction Statuses

On this section you need to set relations between transaction statuses (left) and order statuses (right) for example:

- **INIT** : Pending
- **SENT_TO_BANK** : Pending
- **HOLD_OK** : Processing OR Complete
- **DMS_HOLD_FAILED** : Failed
- **SMS_FAILED** : Failed
- **DMS_CHARGE_FAILED** : Failed

- SUCCESS : Processig or Complete and so on... **Note:** the particular OpenCart configuration can have diferrent order

statuses.

Transaction Statuses

Successful transaction start.

INIT ? Pending ▼

SENT_TO_BANK ? Pending ▼

HOLD_OK ? Processing ▼

DMS_HOLD_FAIL ? Failed ▼

SMS_FAILED_SEND ? Failed ▼

DMS_CHARGE ? Failed ▼

SUCCESS ? Processed ▼

EXPIRED ? Expired ▼

This form shall be submitted within 10 minutes after transaction has been initiated. If you have any questions regarding the amount of transaction, currency or description, please contact your merchant.

Please note: If your bank and merchant account support 3D secure system, you will be redirected to your card issuer to confirm your payment with your 3D password.

If you do not know this password, please, contact your card issuer. Payment.

Эта форма должна быть отправлена не позже чем через 10 минут после начала транзакции. Если у Вас возникли вопросы по сумме, валюте или описанию транзакции, пожалуйста, обратитесь к торговцу.

Обратите внимание: если банк-эмитент и торговец поддерживают протокол безопасности 3D Secure, Ваш запрос будет перенаправлен на домашнюю страницу банка-эмитента для подтверждения платежа с помощью пароля.

Šai formai ir jābūt nosūtītai ne vēlāk kā 10 minūtēs pēc transakcijas sākuma. Ja Jums ir radušies kādi jautājumi saistībā ar transakcijas summu, valūtu vai arī tās aprakstu, lūdzu, sazināties ar tirgotāju.

Lūdzu, ņemiet vērā to, ka, ja izdevējbanks un tirgotājs atbalsta 3D Secure drošības protokolu, Jūsu pieprasījums tiks pārsūtīts uz izdevējbanks mājas lapu, kur pirkuma apstiprināšanai būs jāievada Jūsu 3D drošības parole.

Ja Jūs nezināt 3D paroli, lūdzu, sazināties ar izdevējbanku. Maksājumu
